PROFILE

Information Systems graduate and Master of Applied Business Analytics student focused on practical AI applications and business decision-making. Project experience includes generative AI experimentation, Power BI dashboards, data mining, and enterprise technology evaluation. Combines technical analysis with management experience in employee training, customer service, and process improvement.

EDUCATION

Master of Applied Business Analytics (MABA)

University of Arkansas, Fayetteville, Arkansas

Expected Summer 2027

Bachelor of Science in Business Administration – Information Systems

University of Arkansas, Fayetteville, Arkansas

Graduated May 2026

- Concentration: Business Analytics
- Minor: Marketing

TECHNICAL AND ANALYTICAL SKILLS

- Analytics: Python, JupyterLab, SQL, Excel, Power BI, DAX, Tableau, SAS Enterprise Miner, KPI analysis
- AI and productivity tools: ChatGPT, Claude, Gemini, Copilot, NotebookLM, Muse, Notion, Loom, Gamma
- Development: C#, ASP.NET Core, SQL Server, T-SQL, Visual Studio, VS Code, Cursor, Replit, GitHub
- Design and prototyping: Google Stitch, Figma, FigJam, Canva, Pen.dev, Excalidraw, tldraw
- Enterprise systems: SAP ERPsim, SAP HANA Cloud | Business: technology evaluation, reporting, employee training

SELECTED AI AND BUSINESS TECHNOLOGY PROJECTS

AI-Assisted Portfolio Development | ChatGPT and Google Stitch

- Experimented with ChatGPT and Google Stitch to develop a live portfolio and mobile link page; directed AI outputs through prompts, design feedback, and iterative refinement.

Global Inequality Analysis | SAS Enterprise Miner and Excel

- Prepared data in Excel and contributed to a SAS data-mining workflow using StatExplore and regression to examine global inequality; documented methods and findings in a group report.

ResolveForward Pilot Evaluation | Power BI

- Built Power BI visuals, KPIs, slicers, and DAX measures to evaluate service performance; compared segments and communicated a pilot recommendation, limitations, and review criteria.

SAP HANA Cloud Technology Evaluation | Enterprise Systems Coursework

- Evaluated SAP HANA Cloud against an on-premises environment; prepared a management recommendation addressing scalability, pricing, integration, and proof-of-concept testing.

BlueBox Kiosk Rental System | C# ASP.NET Core and SQL Server

- Built a kiosk rental system using C# ASP.NET Core and SQL Server, applying relational database design and SQL to business requirements and external data.

StashFlow Portfolio Tracker | C# ASP.NET Core and SQL Server

- Developed the investment form and contributed sprint backlogs, design diagrams, and demo test data for a team portfolio-tracking application.

EXPERIENCE

Server

Hideaway Pizza – Rogers, Arkansas

May 2026 - Present

- Manage competing customer requests accurately and coordinate with coworkers to resolve issues and support daily service.

Assistant Manager

Palm Beach Tan – Springdale, Arkansas

August 2024 - May 2026

- Replaced sticky-note tracking with a structured employee and customer issue log to organize records and support consistent follow-up.
- Analyzed sales and inventory trends and used operational reporting to support inventory, staffing, and business decisions.
- Trained employees using a 21-day guide, added manager notes, and organized sales competitions to support product knowledge, sales skills, and consistent procedures.
